Your website — what you get

Everything included, and everything it costs. No contract and nothing to sign.

TODAY, ONE TIME

\$350

\$300 to build the website · \$50 for the first month

EVERY MONTH

\$50

Month to month. Cancel any time, no notice, no fee.

THE \$300 BUILD

- ✓ **A website built for a phone first**, because that is where nearly everyone will see it
- ✓ **English and Spanish**, with a button to switch between them
- ✓ **Tap to call** and **tap to email** — one press and they are calling you
- ✓ **A quote form** that sends straight to your inbox with their name, phone, town and what they need
- ✓ **Your own name on the internet** — yourname.com, set up and paid for as part of your monthly
- ✓ **Every detail checked** against what you have already published

About the monthly report: you will always know whether the website is bringing you work. If a month is quiet, the report says so.

THE DOMAIN NAME

Included. The domain and the hosting are registered, paid for and renewed by me as part of your monthly, so there is nothing for you to set up and nothing to remember. **The name is yours** — if you ever want to take the website elsewhere, I will transfer it to you at no charge.

NOT INCLUDED

- Paid advertising or Google Ads
- Social media posting
- A booking or payment system
- Stock photographs

IF YOU STOP THE MONTHLY

- **The website stays up.** The hosting is free, so it keeps working
- **The domain renews once a year, about \$13.** I hand it over to you, or keep renewing it — your call
- Changes stop being included — they become a one-off price when you want one
- The monthly report stops
- You can start it again at any time

HOW IT WORKS FROM HERE

1

You say yes

Pay the \$350 by card through a secure link. A receipt is emailed to you straight away.

2

We pick your name

You choose it, I register it the same day. Nothing for you to set up.

3

Live by tomorrow

Your site is on your own name within a day. Send photos and your logo and they go on too.
