
SAMPLE · END-OF-MONTH NOTE

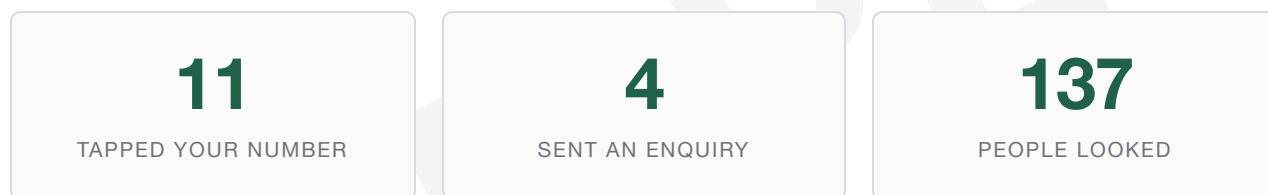

Your website, last month

This is the note you get from me at the end of every month.

The business and the figures below are illustrative — they are here to show you the shape of the note, not to report anybody's real numbers.

Morning —

Quick note on the website for **Example Home Services**.

Eleven people tapped your phone number straight off the site, and four filled in the form. Those four came through to your inbox as they arrived, so you will have seen them already.

Busiest day was the 14th, a Saturday. Almost everyone is finding you on a phone rather than a computer — that is normal, and the site is built for it.

WHAT I CHANGED THIS MONTH

Put your two new photos up, updated the hours for the holiday weekend, and fixed the line you asked about on the 9th. All of it live the same day you asked.

ANYTHING NEEDED FROM YOU

No. If something changes — your hours, your prices, a new service, an offer you want running — text me and it will be live that day.

Thanks,

Enoch
