

SAMPLE · END-OF-MONTH NOTE

EXAMPLE HOME SERVICES

Your website, last month

Illustrative figures for a made-up business — this shows you the shape of the note you get from me every month, not anybody's real numbers.

In plain words: about **one in nine** people who found your site tried to get hold of you — that is up from one in thirteen last month, so the same traffic is turning into more work. Your best week was the last one. Everything in green is a potential job; the grey is just how many people arrived.
